

BRUCE STILLMAN, AO, PHD, FAA, FRS
President, Cold Spring Harbor Laboratory

Dr. Bruce Stillman was born in Melbourne, Australia and graduated from the University of Sydney and the Australian National University. He is the President and CEO, and Oliver R. Grace Professor at Cold Spring Harbor Laboratory, a research and education institute in New York.

Dr. Stillman's research focuses on the mechanism and regulation of duplication of DNA and chromatin in eukaryotic cells. He has been elected to The Royal Society (UK), the National Academy of Sciences, the American Academy of Arts and Sciences and the Australian Academy of Sciences. He was appointed to the Order of Australia (AO) and has received a number of prizes, including the Alfred P. Sloan Prize, the Louisa Gross Horwitz Prize from Columbia University, the Canada Gairdner International Award, the Heineken Prize in Biochemistry and Biophysics from the Royal Netherlands Academy of Arts and Sciences and the Earl and Thressa Stadtman Distinguished Scientist Award. He has received seven honorary doctorates.
